Commercial Reports Favorable. There was an almost entire absence of fresh developments in this morning's hews. The weekly reports of the commercial agencies and the compilations of the various trade and financial journals were encouraging showings, but attention was still largely taken up with the several matters which absorbed interest during the week.

It was generally expected that the preliminary decision of the United States Supreme Court in the Northern Securities matter—that is, its decision as to whether authority would be granted to the Minne-soth State authorities to proceed against the company—will be handed down on Monday

Other strong features of the railway list were Southern Railway. Erie, St. Louis, and San Francisco, Southern Pacific and New York Central.
Among the specialties, Amalgamated Copper was notably strong and active and Manhattan Railway scored a further advance under the same influences which have been effective throughout the week's dealings in the stock.
The industrial quarter was generally steady, with active dealings in Sugar Refining and the United States Steel issues.
The Exhibit of the Banks.

The Exhibit of the Banks.

The bank statement was accounted a strong exhibit, although some of the changes were well out of line with the preliminary estimates. Actual cash showed an increase of \$5,000,000, an amount well below the figures indicated. There had been much uncertainty as to the showing which would appear in the loan account, but a considerable decrease was considered satisfactory.

LARGE PAYMENTS WILL BE DUE. MR. ALLEN ASKED FOR REPORT

Question Now Is, How the District Commissioners Shall Obtain the Money for the Purpose.

While there will be no legislation necssary for the District Commissioners to accept the findings of the jury in the Sixteenth Street extension matter, and to approve them, some steps will be required to provide the money necessary for the large payments which will fall due as soon as the proceedings are legally

This must be done through a loan or by the advance of funds from the United States Treasury to be charged against the future revenues of the District as the law framed for the purpose may specify. Not Officially Notified,

The District Commissioners this morn ing had received no official notification of the action of the Senate Committee on the District with reference to the Sixteenth Street extension.

The Commissioners referred the question of accepting the awards of the last jury of condemnation to the Senate comlittee, with a statement of the difficulties that had been experienced in connection with the proceedings, and especially the small proportion which the assessment of cenefits bore to the awards for damages. Was for Committee to Decide.

The motive of the Commissioners was acquaint the Senate committee with the facts and to leave them to decide whether there should be any further leg-

islation in connection with the opening of the street. The conclusion arrived at by the Senate committee was not unexpected to the Commissioners, and when they are officially notified by Senator McMillan the way will be open for them to approve formally the findings of the jury of condemnation and proceed to the opening of the thoroughfare whenever the money is provided for paying the damages. provided for paying the damages

Congress May Be Called Upon for an Appropriation to Put Fire and Police Telephone Systems in Good Order.

The movement to secure a better equipment of the Electrical Department of the District was advanced one step this merning, when Commissioner Macfarland forwarded to Mr. Walter C. As a matter of form and to secure such information upon the subject as he may be able to furnish, the papers were referred to the Electrical Department previous to taking the matter up for conideration by the full Board.

Measures Depend on Conditions. What measures may be adopted then will rest almost entirely upon the conditions represented to them by Mr. Allen in his rejort and such other information

as the Commissioners may have gained upon the subject. There is little doubt the matter will be laid before the District Committees of the House and Senate with a request for an appropriation that will place the service in a condition that may be relied upon. It is also intimated that it may be neces-sary to make several changes in the per-sonnel of the electrical department.

Affected by Street Railway Wires. In his letter to the Commissioners

Major Sylvester did not attempt to enter into the matter of the causes of the conons which he recited in brief, with but

one exception.

He referred to a previous communication, which he enclosed for the information of the Commissioners, in which Mr.
Allen, the head of the Electrical Department, had stated that in several of the instances previously brought to his atten-tion the trouble was due to an interfer-ence with the District wires by the groundence with the District wires by the ground-ed wires of the street railroad company. In this connection Major Sylvester wrote: "If the workings of the police circuits are interfered with in this respect there may be some means of obviating this in-terference; hence I submit a report year-
